

REPORT

OF THE

BOARD OF ADMINISTRATORS

OF THE

CHARITY HOSPITAL

TO THE

GENERAL ASSEMBLY OF THE
STATE OF LOUISIANA

1911

NEW ORLEANS

Marble Tablet in Main Hall of Hospital.

THE CHARITY HOSPITAL OF LOUISIANA

WAS FOUNDED IN THE YEAR 1786

BY

DON ANDRES ALMONASTER Y ROXAS.

To whose generous endowment, the munificence of the
LEGISLATURE OF THIS STATE,
and the liberality of the State of Pennsylvania, the community is
indebted for the means of erecting this edifice, built in the year

1832.

His Excellency, A. B. Roman, being Governor and Ex-Officio
President of the Institution

To record which and inscribe hereon the names and contributions of
its distinguished benefactors

THIS TABLET HAS BEEN ERECTED.

Annual Report of the Vice-President, E. S. LEWIS, M. D.

To Governor J. Y. Sanders:

I take pleasure in submitting the following digest of reports from officers and committees for 1911:

The income of the Charity Hospital for 1911 was \$197,643.73. Cash receipts, \$220,081.75. Total funds, including cash on hand and special fund, \$243,339.35. This was less by \$6,433.79 than the funds of 1910. The special fund shrank from \$40,911.95 January 1, 1910, to \$19,362.41 January 1, 1911, and, but for legacies and donations received, would be reduced to about \$9,000, but, with these added, plus \$3,895.19 of the general fund remaining over at the close of the fiscal year, there was a cash balance of \$23,257.60. The income of the Hospital is insufficient to meet current expenses. About \$12,000 of outstanding bills are yet to be paid, for which the January appropriation for 1912 will have to be used or the special fund. From some of the fluctuating sources of revenues, as auctioneers, slaughterhouse fees and licenses, the decrease as compared with receipts for 1910 was \$8,895.59; from interest on special fund, \$1,264. Per contra an increase is noted from Pasteur Institute, bills receiveable and rent notes and interments of \$5,919.86.

Disbursements during the year were \$225,287.92, an increase of \$9,253 over 1910. The income being only \$197,643.73, the deficit amounted to \$27,644.19. As Wilkins Micawber logically figures, "Annual income, 20 pounds; expenditures, 19.06; result, happiness. Annual income, 20 pounds; expenditure, 20.06; result, misery. The bloom is blighted, the leaf is withered, the God of day goes down upon the dreary scene, and in short you are forever floored." That

will about be our condition when the special fund is exhausted, even with the \$34,200 so generously donated the Hospital by the citizens of Louisiana on the occasion of its centennial anniversary, unless the State appropriation is increased at the next meeting of the Legislature. Loans from the special fund approximate \$43,000, and should be returned. Derived from donations and legacies, though not given for specific purposes, it has always been held sacred and used only for improvements.

The deficit would have been greater but for \$10,000 obtained from the Legislature through Governor Sanders. In the management a rigid economy was practiced. This will be noted in the report of disbursements, which shows a decrease in expenditures for meat, bread, fuel and groceries of about \$5,000, although a thousand more patients were treated. A considerable decrease is also noted in expenditures for certain departments, X-ray, Engineer's and stationery and printing, amounting to about \$500. The chief increase was from the addition of broad galleries to three of the stories of the Delgado Building for the use of convalescents, at a cost of \$4,497.02, and of covered walks from the Milliken and Delgado Memorials to the Main Building, for the protection of patients, at a cost of \$1,770.40. The first was paid from the Delgado fund with the consent of Mr. Delgado; the second partly from contributions from nurses, employees and maternity wards, amounting to \$834. Of Hospital funds less than \$1,000 was used.

With the patients remaining over January 1, 1911, and the admissions, there were treated during the year 13,039, about 1,000 more than in 1910. Leaving out epidemic years, this is the largest number ever recorded. Of the admissions, 7,814 were white, and 4,906 were colored. Of the white adult, males 4,066, females 2,139, boys 637, girls 472; of the colored adult, males 2,857, females 1,749, boys 166, girls 146. The deaths numbered 1,535, less by forty-four than in 1910. The gross death rate was 11.77 per cent., and the net, leaving out subjects for coroner's inquests, of which there were 208, and other deaths within twenty-four or forty-eight hours, reduces the percentage to 8.1 per cent. In the white

and colored maternity service there were 416 obstetrical cases and 421 births, with a maternal mortality of 3 per cent. The ambulance calls numbered 1,878; surgical cases brought by ambulance, 1,142. Total number of accident cases, 9,240. Operations performed in Miles Amphitheatre, 2,880; in the Delgado Memorial, 1,817. Total number during the year, 4,697. In the out-clinics 21,622 were treated, and 83,491 consultations were given. Prescriptions filled by the Chemist, 44,239. In the Pathological Department 15,249 specimens were examined. In the Pasteur Institute 916 applied, of whom 329 were treated with one death recorded. The Registrar reports 12,171 tabulated histories.

The Training School for Nurses averaged 90 during the year. Of this number there were graduated 24 on the 8th of December, 1911. On the same occasion was held the Diamond Jubilee of the Charity Hospital, commemorated by addresses from Governor Sanders, Mr. Louis Ed. Valloft, chairman of the House Committee, and the Vice-President.

On various occasions the needs of the Hospital have been considered at Board meetings and brought to public notice. Of the many needs discussed an Isolation Hospital is the most imperative. Humanity and sanitation demand the segregation of those affected with contagious and infectious diseases—their separation for the protection of others in the same wards. To do otherwise is a violation of the laws of propriety, morality and humanity, to be condoned only by lack of means for its correction. Some responsive chord may yet be touched in one of our wealthy citizens from which may germinate a dormant seed of charity, blossom and find its fruition in this much-needed annex.

In commemoration of the centennial of the Charity Hospital as a State institution the citizens of Louisiana, unsolicited and with a spontaneity expressive of their appreciation of the noble charity it dispenses, celebrated the event, and from the proceeds derived donated the handsome sum of \$34,200 to this institution. To all who have aided in this benefaction we return grateful thanks, especially to those

gentlemen who initiated and directed the movement which met with so sympathetic and generous a response from all classes and proved so satisfactory and fruitful in results.

With part of this fund and the contributions from the colored friends of the Hospital the building for colored female patients will soon be enlarged, relieving in great measure the congestion of its wards.

During the past year the Hospital received in legacies and donations \$12,952, \$10,000 of which was from the late Mr. Frank T. Howard.

Since the close of the fiscal year Mr. Isaac Delgado, an esteemed citizen, philanthropist and good friend of the Hospital, passed away, leaving this institution a legacy of \$100,000 for the maintenance of the Delgado Memorial.

In conclusion, the officers of this institution and corps of Sisters have merited the highest commendation of the Board for the ability and efficiency shown in the performance of their respective duties. To the Visiting Medical Staff, Ambulance Corps and Pupil Nurses the thanks of the Board are warmly extended, and to the employees in general.

To my associates I desire to express my sincere appreciation of the confidence reposed in me, and to thank them for their part, by far the most onerous in administrative work.

Respectfully submitted,

E. S. LEWIS, M. D.,

Vice-President.

VIEW OF FOUNTAIN IN ROTUNDA MILLIKEN MEMORIAL

Annual Report of the House Surgeon.

FEBRUARY 26, 1912.

*Your Excellency and Members of the Honorable Board of
Administrators of the Charity Hospital, New Or-
leans, La.:*

GENTLEMEN—A glance at the statistics for the year 1911 shows that this grand institution for the care of the sick and injured, which stands as a towering evidence of the generosity of the State of Louisiana and some of its more philanthropic citizens, has answered well its purpose of relieving pain and sickness and affliction, for it shows that, crowded though our wards and overtaxed though all our facilities were for the year 1910, and in spite of the fact that our financial incapacity rendered it impossible to improve conditions during 1911 by the addition of more buildings or the increase of ward space, we treated a much larger number of persons than the year before, which was already a record-breaking year.

The figures show that in our indoor work alone we had constantly on hand occupying beds within our walls (some sleeping two in a bed and some on the floor) a daily average of 102 patients more than the previous year, an increase of nearly twelve per cent., and this without increased room and without increased, but rather diminished, revenue; yet the Treasurer's report shows in a comparative statement with the year before an increase in running expenses of only a little over \$3,000, or less than one and one-half per cent.

The total number who received attention in all the departments of the Hospital was something over 45,000, more

than twelve per cent. of the estimated population of our city. Of the indoor number of 13,039 treated, 1,535 died, a much smaller number than the previous year, giving a gross death rate of 11.77 per cent., as against 13 per cent. the year before. Against this must be credited 433 children born within our walls, which is more than twenty-eight per cent. of the number of deaths.

The statistics for the past year, with some comparison with the two previous years, follow:

	1909.	1910.	1911.
Remaining at beginning of year....	782	785	819
Admissions	9,576	11,313	12,220
Total indoor patients.....	10,358	12,098	13,039
Daily average	797	870	972
Remaining at end of year.....	785	819	911
Accident cases	7,922	8,550	9,240
Outdoor clinics, new patients.....	17,443	18,916	21,622
Consultations, outdoor clinics.....	74,585	98,596	105,113
Ambulance cases	1,510	1,682	1,878
Total number treated in all depart- ments, over	36,000	40,000	45,000
Discharged	8,263	9,700	10,593
Died	1,310	1,579	1,535
Gross death rate, per cent.....	12.6	13.0	11.77
Died within 36 hours of admission.	433	506	480
Net rate after deducting same, per cent.	8.5	8.8	8.1
Deaths from tuberculosis.....	207	265	265
Deaths from Bright's disease.....	188	224	169
Deaths from organic heart disease.	123	155	234
ditions	194	236	207
Total deaths from above causes	712	880	875
Percentage of total num- ber of deaths.....	54.35	55.73	57.00

Coroner's cases	193	224	208
Operations, A. B. Miles Amphitheatre	2,890	2,798	2,880
Operations, Delgado Memorial.....	318	1,319	1,817
Ether anesthesia	1,725	2,228	2,785

“ “ obstetrical	848	965	1,102
“ “ total	9,735	11,410	12,171
Training School for Nurses, graduates	43	33	27

The A. B. Miles Amphitheatre has kept pace with the increasing demands made upon it by the increase in the number of operations and accident and emergency cases for which it has provided.

The Delgado Memorial Building is our latest and most modernly-equipped addition. A larger volume of work was done in its operating-room service, and the addition of the spacious fireproof galleries on its rear have improved the rear view of the building and added much to the comfort of its inmates and the facilities for properly caring for them.

It is with profound regret that we have had to chronicle the death during the year of Mr. Isaac Delgado, to whose generous kindness we owe this grand monument of architecture and most thoroughly appointed building for the administration to the needy poor of all that modern surgical science has at its command. His death has been a grievous loss to the community, and has cast a pall of sadness over all who learned to love and revere him.

The Milliken Memorial Building continues to provide for the satisfactory and efficient care of the children. This is the only building in which we have ample room and ample facilities to take care of as many patients as come within its jurisdiction. We are crowded in all other departments. The kind, good-hearted woman to whom in loving memory of her deceased husband we are indebted for this building is a constant visitor to the hospital, and to this building in particular, and is constantly increasing our debt of gratitude by additional evidences of her generosity. She has donated a handsome costly clock, a beautiful work of art, which replaces one previously donated by T. Hausmann & Sons, Limited, and stands in the main hall at the front entrance.

The Ambulance Service has maintained its standard of efficiency. The new auto ambulance has done the greater part of the work and come up to all expectations. This service would be much improved by the addition of another auto ambulance to take the place of the remaining horse ambulance, and would probably mean a saving of expense in the long run.

Our Obstetrical Service has increased very materially over all previous records, 433 children having been born during the 365 days of the year. There was only one death from septicemia, and this in a case which had been previously tampered with before admission into the Hospital.

The Pathological Department has been ably conducted by Dr. O. L. Pothier, the Pathologist, and his assistant, Dr. M. Couret. The Pasteur Institute, also conducted by the Pathologist, has maintained its popularity, the number of

cases treated being nearly fifty per cent. greater than the number of the previous year.

The Pharmacy Department, under the direction of Mr. Jos. P. Walker, has taken care of the work of milk analysis, manufacture of pharmaceuticals and compounding of prescriptions.

The work of the Registration Bureau, through the able and painstaking efforts of Dr. G. Farrar Patton, has been maintained on a high plane of efficiency, and has increased to such an extent that, unless Dr. Patton be provided with an assistant or his compensation increased so as to warrant him devoting more time to this work, I very much fear that we might lose his services. This Bureau now does twice as much work as was done in 1905, when the service was inaugurated, yet the compensation is still the same.

The X-Ray Department, under the direction of Dr. A. Granger, assisted by Dr. E. C. Samuel, has given better satisfaction than ever before. A new interrupterless generator has just been installed, placing this department on a footing with that of the most thoroughly equipped hospitals in the world.

The Training School for Nurses graduated on December 8th a class of twenty-four nurses and three Sisters of Charity. We suffered the loss during the year of Sister Dolores, the Superintendent, who has been replaced by Sister Angelica, whose kindly interest and painstaking efforts have endeared her to every member of the School. Sister Dolores has been called to a more important post in the Sisterhood at the Motherhouse in St. Louis, so that our loss has been her gain, and we rejoice in our tears at her elevation to a more exalted station.

A register has been established where graduates of the School can report when not busy, and to which the medical profession applies when needing a nurse, making it easier for those not so well known to secure profitable reward for their services.

Members of the Senior Class are now permitted to directly assist the operator in the performance of surgical operations, thus relieving the Resident Student Staff and giving the nurse the benefit of every possible facility.

The Ambulance Corps and Resident Student Body have been faithful and prompt in the performance of every duty, and have demeaned themselves in a dignified and respectful manner. The Corps suffered the loss by death of Mr. Leon F. Berridon, an exemplary student and most faithful worker, who died as he was about to reap the laurels of his professional diploma, a martyr to duty.

The brunt of the medical and surgical care of all patients falls on the members of this body, and with the increased number of patients their work has also increased. I therefore respectfully recommend that their number be increased from twenty-six to thirty. And inasmuch as only those who have completed their full medical course are permitted to apply for these positions, and as I believe that it would add to the dignity of their position, and probably be a stimulus to better work and a more serious appreciation of their advantages and responsibilities, I also beg to recommend that hereafter those applying for examination for positions on our Resident Staff be either graduates of a reputable medical college or eligible for graduation within a few days of the date of the beginning of their term of service if successful; and, further, that they be designated as Internes, instead of Resident Students, as heretofore.

The members of the Visiting Staff have been uniformly attentive to the work of the various departments under their individual care, and deserve the appreciation and gratitude of your honorable body for the laudable manner in which they have given so freely of their time and labor without compensation.

Tulane University having created a Chair of Tropical Medicine, and the clinical work of this Chair having of necessity to be done in the wards of the Charity Hospital, I have assigned to Dr. Creighton Wellman, occupying this Chair, both white and colored wards, and in every way

facilitated his work to the end that with our geographical advantages our Hospital may eventually become the seat of the greatest School of Tropical Medicine in the world.

Beginning with the July number of the *New Orleans Medical and Surgical Journal*, a new department was inaugurated, known as the "Charity Hospital Bulletin," in which articles will appear based on work done and patients treated in the Charity Hospital. This will give the Charity Hospital the credit justly due it in the eyes of the scientific world and act as a stimulus to the Resident and Visiting Staffs in the recording and reporting to the world of the work done in this institution.

During the year the Orleans Parish Medical Society, pursuant to a suggestion made by me on the floor of the society at a regular meeting, and at my invitation on behalf of the Board of Administrators, has held clinical meetings in the A. B. Miles Surgical Amphitheatre. These meetings have become one of the most valuable features of the scientific work of the said medical society, and have brought out prominently the scientific value of the work of our hospital to the medical profession, the community, and humanity in general, and aroused in the members of our resident and visiting staffs a more enthusiastic interest in the work of their respective services, at the same time that it has afforded an opportunity of demonstrating in a manner tended to give it the widest medical publicity the more interesting labors of our medical staff.

A crematory has been installed for the burning of all garbage and refuse, which is the only sanitary way for their disposal, a decided improvement over turning such material over to the city garbage department.

Covered fireproof cement walks have been constructed connecting the Main, Delgado, Milliken and Hutchinson Memorial Buildings, a much-needed improvement, which now permits nurses and patients to go from any part of the Hospital to another without exposure to rain and the inclemencies of the weather.

The Sickles Fund Commission has selected the Charity Hospital as the place from which to distribute free medi-

cines to the poor. This will be an additional way in which the usefulness of our Hospital is increased, and will render it possible for the poorer of our outdoor patients who are unable to pay for medicines, and who were not supplied with them by the Hospital, to procure them free of cost.

The Colored Women's Building is now in process of reconstruction and the building to it of an addition which will increase its capacity by seventy-five beds. This is a much-needed improvement, and will, for a time at least, relieve the congestion in what is now the most crowded part of the Hospital.

On December 8th there was celebrated on the Hospital grounds the hundredth anniversary of the inauguration of the Charity Hospital as a State institution.

Some months before a number of the friends of the Hospital met and formulated a plan to celebrate the centennial anniversary by raising money to meet the needs of the Hospital, winding up with a fair which was held from December 11th to 16th, inclusive; and as a result of their efforts and the untiring work of a large number of the ladies of this community the work of this Hospital became more generally known than ever before, and a sum in excess of \$35,000 was realized.

The Board has already expressed to these gentlemen and ladies its appreciation of their noble efforts.

This sums up the work of the Hospital and a general statement of improvements made and the present condition of affairs.

PRESSING NEEDS OF THE HOSPITAL.

I beg to call the attention of your honorable body to the following needs of a more or less imperative nature. None of these is theoretical or impractical in character, and they are all absolute necessities if we are to continue to maintain the fair name and worldwide reputation of our Hospital, and some of them are an actual sanitary menace:

FIRST. The plumbing in the older portions of the Hospital is antiquated and defective, and requires the earliest attention.

SECOND. The same may be said of the heating system, which is constantly calling for repairs.

THIRD. The present laundry building is, I believe, forty-two years old, and was amply large when built, but is totally inadequate to do the work of the Hospital of today, half the work now being done by patients and employees by hand.

FOURTH. The greater number of both the male and female help have to sleep in wards with the sick. Some building or buildings should be provided for them, giving them the necessary comforts and insuring to them better health, and their removal from the wards leaving that many more beds to be occupied by patients.

FIFTH. Last year over \$6,800 was spent for ice and electricity. The engineer estimates that an ice and electric plant can be erected for \$33,000. This would permit us to use more electricity and use the ice plant to refrigerate our morgue, a pressing need.

SIXTH. The addition of a fourth story to our Main Building would give us room for 160 beds and relieve the crowded condition of this building.

SEVENTH. The continuation of the third story of the White Women's Building over its entire length would relieve the crowded condition of this building, at a cost estimated by the engineer at \$5,000.

EIGHTH. This is the only institution in the city that admits contagious diseases. Yet we put them in buildings with other patients, and in some cases in the same ward, for we have no special building. An Isolation Building is an absolute necessity.

NINTH. We are also the only institution that will admit cases of pulmonary tuberculosis. We sorely need a building especially erected for them, where they can get scientific treatment and have some hope of recovery.

I sincerely hope that your honorable body will soon find the means of remedying these conditions. Of course, all this means the expenditure of money of an amount not now in sight. Let us hope, however, that the General Assembly will look upon us with kindly eyes and supply the deficiency as far as in their power lies; or that some richly-endowed citizen may see his way clear to come to our aid and follow the splendid example of Mrs. Hutchinson, Mrs. Milliken and Mr. Delgado, and the other benefactors of this noble charity.

In conclusion, let me voice one note of appreciation of the devoted work of self-sacrifice of those good Sisters of Charity, under the able leadership of Sister Mary Agnes, who are living examples of industry and economy and living models of all that is pure and sweet and devoted in woman.

I take great pleasure in commending the work and expressing my appreciation of the loyal and active co-operation of Mr. Jas. R. Leake, our Clerk; Mr. John Ponder, our Engineer; Captain L. P. Delahoussaye, our Secretary, and my true, devoted assistants, Dr. S. W. Stafford and Dr. C. G. Cole.

And, finally, let me thank your honorable body, collectively and individually, for the support and encouragement that have made a pleasure of the most arduous task.

Respectfully submitted,

JOS. A. DANNA, M. D.,

House Surgeon.

DELGADO MEMORIAL HOSPITAL

Annual Report of House Committee.

NEW ORLEANS, LA., February 21, 1912.

Members of the Board of Administrators of the New Orleans Charity Hospital of Louisiana:

GENTLEMEN—Improvements during the past year have been *nil*, compared with the absolute requirements of the institution.

It should be plain to you, gentlemen, that, notwithstanding we operate at less cost than 65 cents per patient per day, which cost not only covers the maintenance of a million and a half dollars of State property, but the care and comfort of the sick; operate an emergency ambulance department, a Pasteur department, and give seventy-odd thousand clinical visits free; free medicine, bury the dead, etc., that with a daily average of over a thousand patients, an approximate cost of \$19,500 per month, with a State appropriation of less than \$13,000 per month, we have absorbed our reserves to sustain and care for the sick, and improvements have been a secondary consideration, regardless of their imperative necessity.

With due modesty, your Chairman, Dr. E. S. Lewis, in May, 1908, anticipated our financial condition, and by resolution of the Board waited upon Governor Sanders, who recognized our wants, and who assisted in increasing our appropriation \$55,000 per year, or 50 per cent. more than the appropriation of the eight previous years, and yet the demands upon us have increased so heavily that that amount is approximately \$6,000 a month less than is required to

care for those who are sick in the Hospital, without considering improvements.

A comparison of our reserve fund of January, 1911, and January, 1912, shows conclusively that we have been compelled to draw from this fund \$15,000 during the year for operating expenses, notwithstanding approximately \$2,000 a month was received from gate receipts and sundry donors.

The following comprises such improvements as were completed during the year of 1911, to wit:

All memorial buildings, including Main Building, have been connected with fireproof covered walks, schillinger paved, which was found absolutely necessary in conveying the patients to and from one building to another in bad weather. There has also been added to the Delgado Memorial Building a four-story, fireproof gallery, which has added greatly to the hygienic conditions of the building, as it allows facilities for giving sun baths, which is considered essential in modern hospital practice.

All serving rooms in Main Building have been fitted with enameled iron pantry sinks of a modern sanitary pattern, with hot and cold water attachment. The old and badly-worn slop sinks on gallery of Main Building have been removed and replaced with modern sanitary slop sinks, hot and cold water attached.

The regular routine of repairs, including carpenter work and painting on the various buildings of the institution, have been kept up to standard, including all roofs of the sixteen buildings located on the grounds of the institution.

We respectfully call your attention to the bad condition of the plumbing fixtures in the various buildings of the institution, viz.: Main Building, Sisters' Building, Laundry Building, White Female Department, Maternity Department, and Colored Female Department.

The plumbing fixtures in the above-named buildings were installed in the year 1873, and were at that time con-

sidered as good as any manufactured. They are at present badly worn and unfit for use, and, as a precaution from a sanitary view, the entire plumbing should be taken out from the above-named buildings and replaced with modern sanitary plumbing fixtures, in order that they may comply with the rules and regulations of the New Orleans Sewerage and Water Board, when you will be allowed to make permanent connections with said sewer, whereas at present we are using a temporary connection with the New Orleans sewer mains for which the New Orleans Sewerage and Water Board granted you permission to make temporary connections with their sewer lines, with the understanding that you would install new plumbing fixtures in the above-named buildings in time not to exceed one year from and after making such temporary connections. The time expires, in accordance with your agreement with the said Board, on the 20th day of next May, and no doubt if some steps are not taken along the lines of complying with the rules and regulations of the Sewer Board, we will be compelled to resort back to our old sewer system between the Hospital and the Mississippi River, which will involve an expense of \$1,500 for new sewer pumps, as the old pumps have been in use twenty-six years, and are at present in a badly-worn condition, and it was for that reason, as well as a saving in fuel, that the said Board allowed us to make temporary connections with their sewers, with the understanding that the above changes would be made. To install new modern sanitary plumbing in the above-named buildings will cost \$18,000, for which we strongly recommend a special appropriation, independent of the maintenance of the institution.

The heating apparatus of the Charity Hospital was installed in the year 1872, and consists of pipe coils built on the ground. These pipe coils at present are badly worn, but have been kept in repair from year to year, as the institution has not been in financial condition to replace these pipe coils with modern cast iron radiators. I consider this work worthy of some consideration, as a great deal of time and material are being spent in keeping up an antique system as above described.

Steam lines have been extended across the street and into the ambulance house. The radiators could be installed at an expense of \$750. However, plumbing should receive the first consideration.

Another very important addition to the Hospital, for which you own the land, is a laundry building in place of the present building, which is entirely too small for the purpose intended, owing to the growth of the hospital in the past forty-two years, when the laundry plant was installed. It was at that time ample in size. A building should be erected of a sufficient capacity to accommodate the laundry and ice plant, also sleeping quarters for female employees of the institution. Seventy-five per cent of this help is at present sleeping in the wards occupied by patients, which is not considered modern sanitary precautions taken for Hospital help. A new brick structure of a sufficient size to accommodate as above described would accomplish four purposes well worthy of consideration—namely, the ice plant for ice making and refrigerating purposes, the laundry, sleeping quarters for female help, and also for linen-rooms for the entire Hospital. Such a building would greatly relieve the present existing condition with an expenditure of \$45,000. It would also give an opportunity of repairing the old laundry building and replacing same in a suitable condition to be used as an isolation hospital, or such other purposes as you think well of designating. The same conditions and circumstances exist with the male help of the institution. A new building of a suitable size to take care of the male help would relieve the congestion. Such a building, with accommodations as above described, including storerooms and baggage-rooms, can be erected for approximately \$16,000.

The Hospital has at present a very low rate contract for the electric current supplied the institution and various apartments thereof. This service has grown to be quite an item as a large amount of current is required for surgical and medical purposes, including X-rays and two amphitheatres, and seven electric elevators, and notwithstanding the exceedingly low rates you have been able to contract for cur-

rent, it is at present aggregating an average monthly expense of \$375, and for that reason I would recommend for an institution of this size having their own generating plant, as provided for in the new power-house, including boiler capacity—a total cost of one pair of 75 K. W. D. C. generators complete with all necessary wiring to connect with switchboards in the various buildings, ready for use, for the approximate figure of \$25,000.

Respectfully submitted,

LOUIS ED. VALLOFT,
Chairman House Committee;

JNO. T. GIBBONS,

CHARLES A. FARWELL.

Annual Report of the Medical Committee.

NEW ORLEANS, LA., February 21, 1912.

To the Board of Administrators, Charity Hospital of Louisiana, New Orleans, La.:

GENTLEMEN—The details of the year's work have been thoroughly covered by the reports of the esteemed Vice-President, Dr. E. S. Lewis, and by our efficient House Surgeon, Dr. J. A. Danna, whose able work and devotion have contributed so much to the past year's achievement.

The House and Visiting Staffs have at all times been dutiful and painstaking, and deserve particular praise and acknowledgment.

We feel it but just that more than passing reference be made to the service given by the Sisters of Charity; yet this has been so eminently satisfactory for so long a time that praise is but a repetition of past reports.

The Internes in their arduous work deserve proof of appreciation, and for that reason we recommend that hereafter graduates be eligible, instead of students, as heretofore. It is with regret that we must record the death of Mr. Leon F. Berridon, who died in service March 20, 1911. His work had been most satisfactory and his conduct exemplary.

The Training School for Nurses has shown itself so fit that it has been deemed proper to allow the senior nurses to assist directly in operations, thereby enhancing both the service of the Hospital and their own efficiency. That efficiency has been so well recognized by the public that it has been found necessary to establish a nurses' register at the Hospital.

The establishment of the Chair of Tropical Medicine by Tulane University has been properly recognized and suitable provision made for its needs.

Through the generous response of the public, the Colored Women's Building has been added to and renovated, thereby increasing our capacity by seventy-five beds. This, however, will not cover our present needs for more accommodation, for the daily average for 1910 was 870; the daily average for 1911 was 972. Therefore, the already crowded condition existing in 1910 was made more apparent by the additional increase of 102 patients.

We feel it useless to enlarge this report with cumbersome recommendations which the means at our command will not allow us to carry out. However, many conditions not requiring great expenditures of money are daily being looked after in order that the Institution may continue, with the means at hand, its steady progress to an ideal Hospital.

Respectfully submitted,

MARION SOUCHON, M. D.,
Chairman Medical Committee;

JNO. T. GIBBONS,

HUNTER C. LEAKE.

Annual Report of the Finance Committee of the Charity Hospital of Louisiana.

NEW ORLEANS, LA., February 1, 1912.

To the Vice-President and Board of Administrators:

GENTLEMEN—Your Finance Committee respectfully report that the accompanying statements, prepared by the Treasurer, have been duly examined and found correct. These statements give a history in detail of all the receipts and disbursements during the year 1911. They show total revenues of \$197,643.73 for 1911, as against \$225,287.92 of expenditures, showing a deficit of \$27,644.19 for 1911. In other words, the annual statement of the Charity Hospital's expenses shows an increase over the receipts for the year by \$27,644.19.

During the year it was necessary to meet current expenses by making a loan of \$15,000 from the Special Fund. If we add the amount of \$36,500 borrowed last year (1910) it makes a total loan of \$51,500 from the Special Fund.

The cash statement shows on January 1, 1912, a balance of \$29,378.44 as cash on hand. Bonds amounting to \$3,500 for the Delgado Memorial Hospital are deposited in the Commercial National Bank for the repairs of said buildings. The items of disbursements, as per comparative statement of receipts and disbursements, for the years 1910 and 1911, show an increase of \$21,025.55, less a decrease of \$11,772.44, making a net increase of \$9,253.11 for the year 1911. The principal increases are: Repairs, \$2,044.45; employees' wages, \$3,690.60; Training School for Nurses, \$1,866.70; marketing, \$1,456.61; Sisters' clothing, \$1,200; insurance, \$2,847.26; improvements, \$1,715.79; labor, \$325.05. The following items of receipts show increases dur-

JOSEPHINE HUTCHINSON MEMORIAL. (NURSES' HOME.)

ing the past year: Hospital appropriations, \$9,999.90; gate fees, \$355; Pasteur treatment to citizens of other States, \$1,429.94; interments, \$1,852.59.

The statement of Special Fund shows a balance of \$26,-00.67 to its credit after lending \$15,000 to the General Fund. The donations during the year show amount received \$12,-952, of which amount the late Frank T. Howard gave the Hospital \$10,000, the Widow Henry J. Boiman \$1,000, and the balance contributed by many persons and parishes. Very little improvements have been made this year owing to lack of funds. We regret to report that while the late Mrs. Richardson donated the sum of \$5,000 to the Charity Hospital, the said amount has not yet been received, but we hope to be placed in possession of same in the near future. We desire to invite your attention to the contribution of \$2,667.55 from a number of colored citizens of New Orleans for the erection of an annex to the colored female wards of the Hospital, to give greater capacity to the said wards, and improve the condition and comforts of the patients therein. These colored friends of the Hospital are still soliciting contributions, and we are advised the amount will reach approximately \$3,500.

The usefulness of the Charity Hospital has been greatly extended in the past year. The number of indoor and outdoor patients has been materially increased, therefore expenses must necessarily multiply, and greater appropriations are imperatively necessary. The State must give greater appropriations to meet the additional expenses.

Respectfully submitted,

HUNTER C. LEAKE,
Chairman Finance Committee;

J. B. SINNOTT,

THOS. DOUGLAS.

Report of Supervisor of Public Accounts.

BATON ROUGE, LA., December 31, 1911.

*To the Board of Administrators of the Charity Hospital of
Louisiana:*

GENTLEMEN—Regularly at the end of each quarterly period during the year 1911 I have examined the accounts of Secretary-Treasurer L. P. Delahoussaye, of the Charity Hospital of Louisiana.

All entries were scrutinized, all postings verified, and each and every invoice and voucher thoroughly examined.

I am, therefore, in a position to say that the Secretary-Treasurer's books present a faithful accounting of all funds received and disbursed by him in his official capacity.

I can say, further, and take pleasure in doing so, that the Secretary-Treasurer is a careful, painstaking, conscientious official, his records being a model of neatness and his duties always receiving strict attention.

A. M. SMITH,
Supervisor of Public Accounts.

35. On six boilers, including stoker, contained therein	3,000.00
36. On office and toilet-room furniture contained therein	200.00
37. On the three-story brick slate-roof building, occupied as Ambulance House, situated Nos. 1535-1539 Tulane Avenue, between Freret and S. Robertson Streets..	20,000.00
38. On three ambulances and equipment therein, \$500 each, \$1,500; one tallyho, \$200, contained therein	1,700.00
39. On beds, bedding, furniture and harness contained therein	500.00
40. On one- and two-story frame and brick, slate-roof buildings, including cisterns and fences, occupied as stables, wagon-shed, carpenter shop and employees' Nos. 1551-1555 Tulane Avenue, between S. Robertson and Freret Streets, bounded by Cleveland Avenue.....	5,000.00
Carried forward	\$294,300.00

Brought forward	\$294,300.00
41. On three wagons at \$120 each, \$360; one cart, \$40, contained therein.....	400.00
42. On eleven (11) horses, no one horse to be valued at over \$100, while contained in Ambulance House, Stables and Yard....	1,100.00
43. On tools and furniture contained in Carpenter Shop	200.00
Total.....	\$296,000.00
One-half only carried by the Hospital—say	\$148,000.00

On the five-story and basement fireproof building, known as the "Delgado Memorial," situated on Tulane Avenue, between Howard and Magnolia Streets, bounded by Gravier Street, New Orleans, La....	\$100,000.00
On contents therein.....	15,000.00
Total.....	\$115,000.00

On the four-story and basement brick, composition and iron-roof building and additions thereto, known as the "Richard Milliken Memorial," situated on Tulane Avenue, between Howard and Magnolia Streets, bounded by Gravier Street, New Orleans, La.....	\$70,000.00
On three memorial windows, being \$600 on each, contained therein.....	1,800.00
On contents and equipments therein.....	3,200.00
Total.....	\$75,000.00

On the four-story and basement brick, composition-roof building and additions belonging thereto, known as the "Home for Trained Nurses," situated on the corner of Gravier and Magnolia Streets, bounded by Tulane Avenue and Howard Street, New Orleans, La.....	45,000.00
On contents therein.....	4,000.00
Total.....	\$49,000.00
One-half only carried by Hospital—say	\$24,500.

On the double frame house, 225 Villere Street..	\$1,100.00
On the sheds Union Cotton Press.....	7,125.00
On steam boilers	20,000.00
On lease of Union Cotton Press.....	1,830.00
On New Kitchen Annex.....	2,500.00
On No. 40 Freret Street.....	300.00
On Nos. 412-414-416-418 Freret Street.....	1,200.00
Nos. 1520-1522-1524 Gravier Street.....	1,500.00
Nos. 401-403-405-407 Howard Street.....	1,500.00
No. 413 Howard Street.....	500.00
Total.....	\$37,555.00

Donations

ACKNOWLEDGED BY SISTER MARY AGNES.

Mrs. Richard Milliken—Handsome clock, Christmas tree, toys and candy for all the children of the Milliken.

Nurses and Employees—Linen, glassware and needed articles.

Jules Missy—Case of ale.

Frank Clesi—Two boxes apples and two boxes lemons.

Miss C. Hartwell—Toys for children.

Dr. S. W. Stafford—Ducks.

Dr. C. G. Cole—Barrel syrup.

Game Warden—Ducks.

Capt. L. P. Delahoussaye—Shrimps and game.

Dr. J. A. Danna—Chickens.

J. Hirsch and R C. Webb—China dinner set.

Mr. Gardina—Two bunches bananas.

M. McDonough—Eggs and rabbits.

W. Acosta—Two large baskets of lake shrimps.

Conference Gentlemen—Four boxes Easter nests.

Domenico Canino—Two crates strawberries.

Mrs. L. Fellman—Periodicals.

M. Applewhite—Sack of potatoes.

National Plant and Flower Guild—Box of fresh cut flowers.

Mrs. A. J. Steir—One bolt glass toweling.

Miss P. Fitzwilliams—Two boxes M. P. bottles.

Mrs. Prestenbach—One dozen chickens.

American Fish, Game and Oyster Company—Five pounds red snapper.

A Friend—Bundle of children's clothes.

Louis Goldstein—Two cases straw hats.

Alvin Landry—Ten dollars for brace for Marie Zeb.

Edward Reagan—Three gallons ice cream and box choice cakes.

Mrs. J. McHughs—Hipjoint splint and pair shoes.

Louis Strabona—Five sacks oysters.

A. S. Kottwitz Company—Three boxes apples.

Mrs. Geo. H. Davis—Cut flowers.

P. J. Rihner—Five boxes mandarines.

Marion Vaughn—One turkey.

H. P. Taylor—Twelve dozen Chalmers S. gelatine.

Miss E. Kuhnke—Artificial limb.

Mrs. J. Hockinger—Decorated Christmas tree.

Ignace Guillott—Two half-barrels syrup.

Milliken Society, through Miss I. Carter, President—
Crockery and baby bibs.

Mrs. C. Foret—Chickens to Ward Seventy-four.

By Grateful Patients—Linoleum, towels, gowns, etc.

By Several Contributors—New sinks in Men's Building.

Pathological Department.

CHARITY HOSPITAL,

STATE OF LOUISIANA.

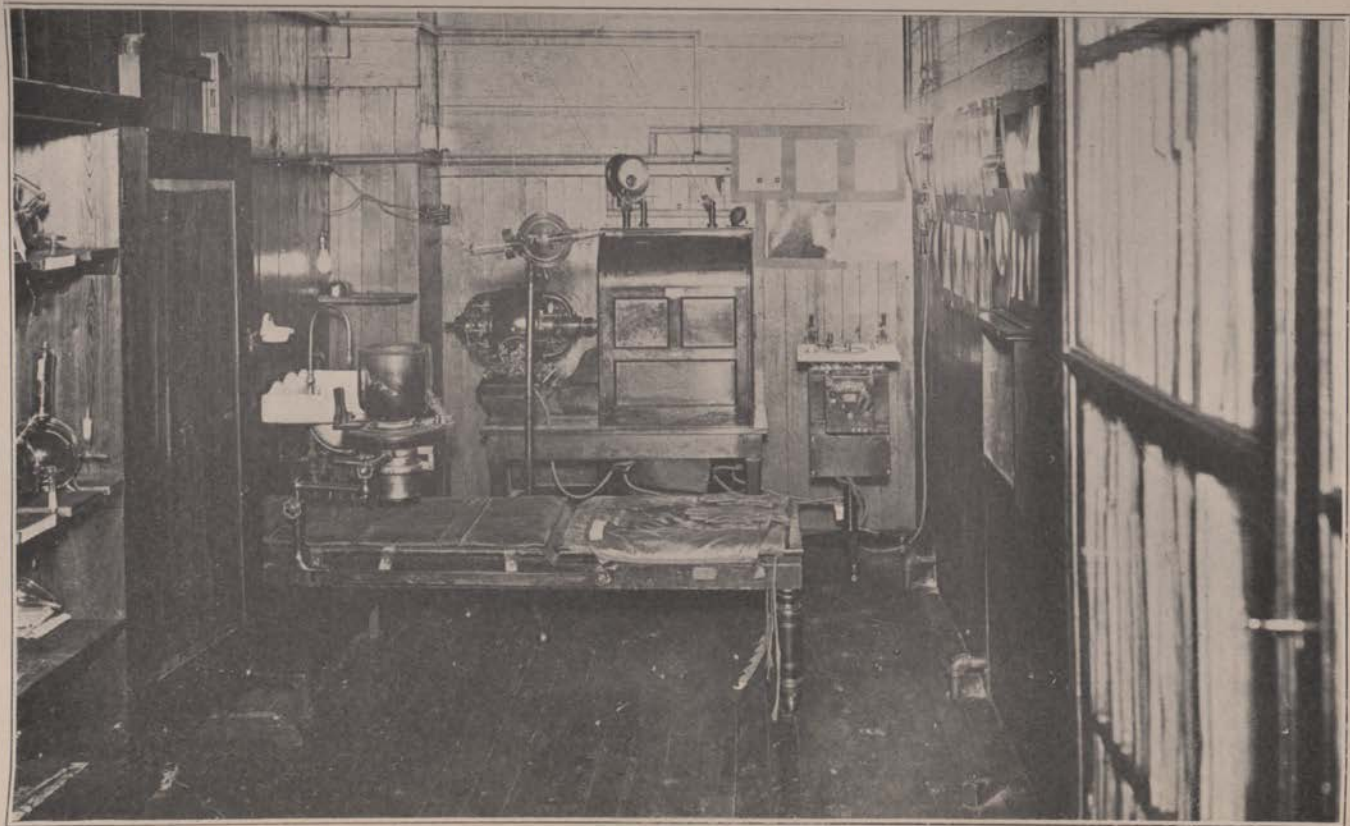

NEW ORLEANS, LA., February 6, 1912.

To the Board of Administrators of the Charity Hospital:

GENTLEMEN—I have the honor to submit the following annual reports of the Pathological Department and Pasteur Institute for the year ending December 31, 1911:

Specimens of urine examined	9,773
“ “ blood examined	2,338
“ “ sputa examined	1,370
“ “ feces examined	391
“ “ cultures examined	240
“ “ smear examined	50
“ “ fluid examined	27

Centennial Celebration of the Charity Hospital of Louisiana.

On the afternoon of Friday, December 8, 1911, the Centennial of the Charity Hospital of Louisiana was celebrated upon the Hospital grounds in conjunction with the graduating exercises of the Training School for Female Nurses, pursuant to a resolution of the Board of Administrators.

At about three p. m. the pupil nurses of the Hospital, garbed in their neat and pretty uniforms, formed a guard of honor to escort the Graduating Class; our honored guest, his Excellency J. Y. Sanders, the Governor of Louisiana; the Administrators, and the Faculty of Lecturers, to the platform which had been erected in the rear of the Delgado Memorial Hospital. Here the procession was met by the corps of resident students, who were acting as the Reception Committee. The stage was beautifully decorated with the flags of our country, the colors of the pupil nurses waving in every direction to our Southern breeze, and many tropical ferns. These, with the Graduation Class, clad in their costumes of pure white, surrounded by the pupil nurses and the Sisters of Charity, made an impressive and lovely scene long to be cherished as a sweet memory in the days to come.

After all had been seated, Vice-President E. S. Lewis, M. D., acting as chairman, arose, and, after thanking the many friends for their presence on this joyous occasion, stated the object of the meeting. Dr. E. S. Lewis then proceeded to deliver the following address, a complete evolution of the Charity Hospital of Louisiana from its earliest inception to the present day, forming a true and correct history of this Institution:

LADIES AND GENTLEMEN—You were invited to attend the Diamond Jubilee ceremonies and the graduating exercises of the Charity Hospital Training School.

The spontaneous and generous response of the people of Louisiana, and especially of the citizens of New Orleans, on the occasion of this anniversary is a most gratifying and flattering testimonial of appreciation of the magnificent charity this Institution dispenses to all those who come to it for relief. It has not its equal for usefulness, efficiency and magnitude in any of our sister-States of the South, and but few are superior to it in this country. It is an institution in which we take great pride, and is a credit and an honor to the State which supports and maintains it.

It is my pleasant task on this occasion to give you a brief sketch of its evolution from the early struggles of its existence to its present state of full maturity.

From various sources it is learned that a sailer dying in New Orleans in 1736 left a legacy of 12,000 lire (about \$4,000) to found a hospital for the poor, which was effected the following year, during Bienville's administration, by the purchase of the residence of Mrs. de Kolly, a wooden structure situated on the west side of Rampart, between Toulouse and St. Peter Streets. With what was left of the legacy after it was furnished, and with means derived from private contributions, a brick wall enclosing it was constructed. Such was the humble and modest origin of this great eleemosynary institution, whose portals are freely open to the afflicted from all parts of the world without question and without restriction. This primitive structure was destroyed during the hurricane of 1779, with the exception of the kitchen and storehouse, which were utilized for the patients.

The Province of Louisiana had in the meantime reverted to Spain. Through the philanthropy of a wealthy and noble Spaniard, Don Almonaster y Roxas, and with the consent of the King, a more imposing structure of brick was erected and completed in 1784 on the site of the old Hospital, at a cost of \$114,000, with an endowment of about \$1,500 annually from the rental of stores on St. Peter Street. The administration of its affairs was vested in Don Almonaster and his heirs by authority of the Crown. As Dr. J. C. Castellanos, a distinguished veteran of the medical profession,

says in a series of interesting articles published in the *New Orleans Medical and Surgical Journal*, "this generous citizen of a foreign country, with the inspired conviction and impassioned eloquence of the seers of old, in an address stated: 'And who dares doubt but that this God-inspired work will also meet with that divine aid which alone can make it enduring, and be the forerunner of many others to come? To speak otherwise would imply a premeditated attempt to stem the copious overflowing streams of the eternal fount of all good, and to commit the most grievous error of distrusting infinite mercy. Let us, therefore, trust that God will also provide for the Hospital by inspiring Catholic hearts with a special zeal for its welfare.'" Noble and prophetic words, which were not lost in oblivion, but have found root in our people, who have always responded to appeals for extending the sphere of usefulness of this great public charity. The Almonaster Hospital was destroyed by fire in 1789, and its patients were temporarily moved to the City Hall, and from there transferred to the Jourdain Plantation, a short distance below the city.

Possession by the Territory of Orleans of the vested rights of the Almonasters was accomplished by compromise in 1811, but the Hospital was not rebuilt until 1815, and then on the square bounded by Canal, Common, Dryades and Baronne Streets. This square was subsequently purchased by the State, and served as a site for the old University of Louisiana and the Statehouse. The new Hospital was built in 1832, and is the present Main Building. It is massive and imposing, and modeled after Guy's Hospital in London. It cost \$150,000 of funds appropriated by the State and obtained from private subscription. Its mortuary, stables and ambulance quarters were in the rear of the grounds, facing on Gravier Street. The following year (1833) the Sisters of the Order of St. Vincent de Paul were invited to take charge of its economy. The invitation being accepted, five were sent to New Orleans, with Sister Regina Smith as Superior. They entered the Hospital on January 6, 1834, taking their first dinner there. In the seventy-seven years of their connection with this institution

there have been but four Superiors. Sister Regina was succeeded by Sister Evelina. Then followed Sister Agnes, the well-beloved, from 1871 to 1909, a period of thirty-eight years of invaluable service. She is still with us, an invited guest of the Board. She was succeeded by the present incumbent of the same name, who bids fair to divide honors with her predecessor in our affection and in the wisdom of her management.

The first annex erected was the Women's Building, in 1848, a three-story frame structure at right angles with the west-end wing of the Main Building, and connected with it through the second story by a covered gallery.

The Sisters were at first domiciled in a ward of the east wing of the Hospital, in the west end of which was the office of the Secretary and Treasurer. The officers and students were quartered in the west wing. A separate home for the Sisters was not established until 1849, which they still occupy, and which also serves as kitchen, laundry, storehouse and dining-rooms. They should have a new home, with more comforts and modern conveniences, in a central location, to be in touch with the various additions that have since been made. This was followed in 1851 by the brick two-story buildings on each side of the Main Entrance, which are for officers, House Surgeons and students' quarters. In the same year the Maternity Building was erected. It was a two-story brick edifice, having two wards, of which the lower was for female surgical patients and the upper for obstetrical cases. This maternity service was enlarged in 1879 by the construction of a two-story brick building in its rear, at the corner of Gravier and Robertson Streets, the lower story of which is used for its laundry. This building was still further extended in 1884 by a two-story wing on its east side, furnishing additional wards for white females. A third story was added to the original building in 1892 for the pupil nurses of the Training School, about to be opened.

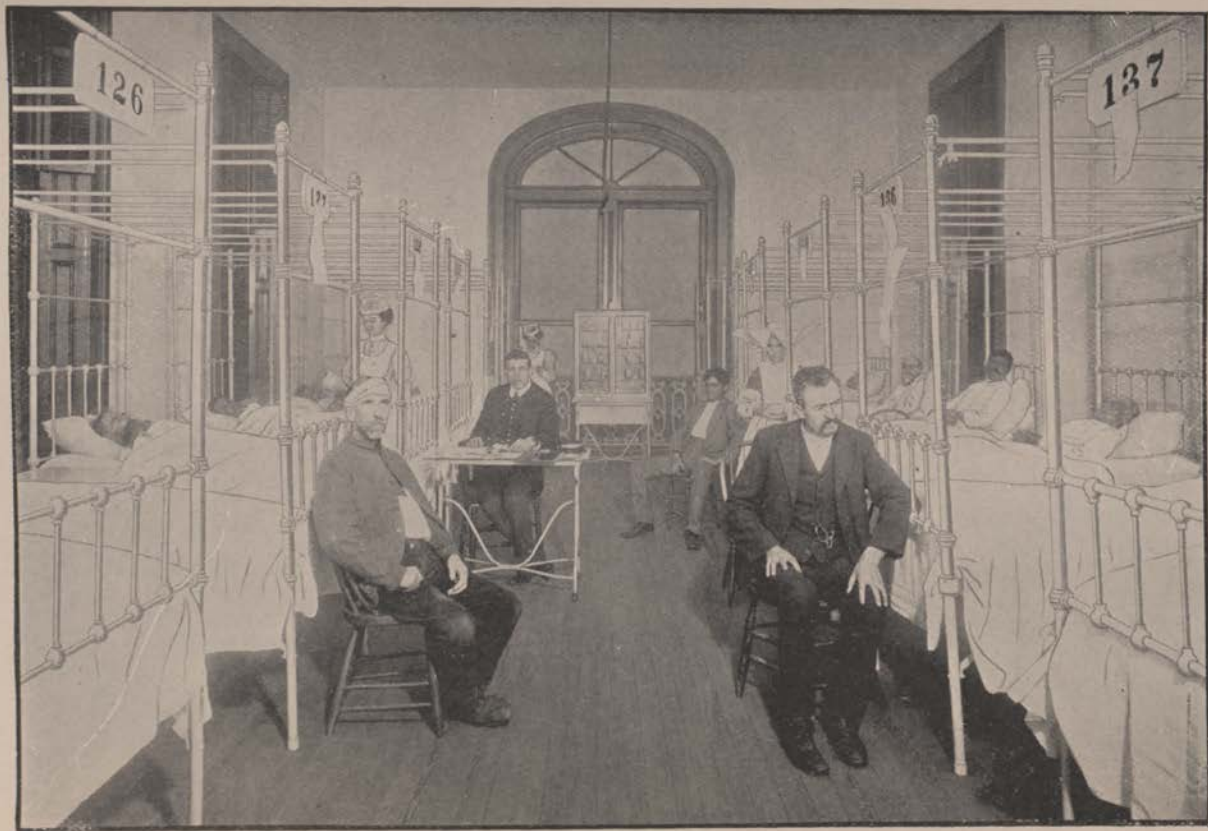

The erection of the Miles Surgical Amphitheatre in 1895, with its improved surgical facilities and aseptic features, marks an era in the history of this Institution.

The old germ-laden wooden structure it replaced, in which autopsies were at times held and all major operations performed, was a chamber of horrors in the dawning light of aseptic knowledge. Then followed the development of the Ambulance Department, for which the site of the New Orleans School of Medicine was purchased. The school was demolished and much of its material employed in the construction of a two-story brick ambulance house, which was completed in 1885, and serves as quarters also for the students on duty. An amusing episode is related regarding the first ambulance call, on December 6th of that year, to a colored workman who was injured on the Exposition grounds. On the way to the Hospital he made his escape. The students, not to be disappointed on their first expedition, picked up a gentleman they found drunk on the way.

The ambulance ground was subsequently enlarged by the purchase of the adjoining property on Tulane Avenue in 1888, and the residence serves as a dormitory for the male help of the Hospital. In 1909 an additional story, with modern conveniences, was added to the Ambulance House for the students, whose number had been increased. In 1885, also, the old mortuary in the rear of the grounds was demolished and replaced by the present two-story building, in which is also the Pathological Department. In 1908 two wings were added to its second story, increasing the facilities of that department and affording room for the Pasteur Institute, established in 1903. The Training School for Nurses was opened in May, 1893, marking another epoch in the Hospital's history. It changed and revolutionized the old system of nursing, to the infinite advantage of patients; and these pupil nurses in training render invaluable and important services in return.

In 1891 the Out Clinic Buildings were constructed, to the great relief of the Hospital from the crowding of its halls and wards, and to the greater safety of the inmates from a possible source of infection.

A few years later the reports of the Board dwelt on the want of facilities for the treatment of diseases of children.

VIEW OF ONE OF MEN'S WARDS.

A generous and esteemed lady came to its aid with the offer of a donation of two hundred thousand dollars for the erection of a Memorial Hospital for Children in memory of her deceased husband. Her offer being accepted, the Milliken Memorial was built and equipped in 1898. It is a beautiful building, fronting on Tulane Avenue, on the west side of the main edifice, and is complete in all of its appointments for the medical and surgical treatment of children. It has accommodations for 200 beds. The charity of this noble woman has not ceased with this munificent gift, as she has unceasingly continued to supply all of its needs.

Then followed the Hutchinson Memorial Home for Nurses, in 1901, at a cost of fifty thousand dollars, the gift of a philanthropic citizen, Mr. Hutchinson, in memory of his wife. He appreciated the importance and value of this branch of service, and the need to the hard-worked young nurses of more comforts and conveniences than they could obtain in the dormitory provided by the Board.

A few years later the attention of Mr. Isaac Delgado having been drawn to the congestion of the surgical wards, he offered to relieve this deplorable condition by supplying the means to erect a hospital for surgical male, female and gynecological patients as a memorial to his deceased uncle and aunt, Mr. and Mrs. Samuel Delgado. This offer was gratefully accepted, and two hundred thousand dollars was donated by this kind-hearted citizen for this purpose. The Delgado Memorial was erected in 1909. It is a four-story brick building between the Milliken and the Main Building. It has one hundred and twenty-five beds and four operating-rooms on the upper floor, and is one of the most valuable and useful buildings on the grounds. I regret to say that this philanthropic gentleman, who has done so much to relieve others, should himself be seriously ill at his residence.

The many additions had taxed the capacity of the old power plant to the limit, and another was installed in the rear of the Hospital grounds, at a cost of forty-nine thousand dollars, in 1910, which will meet all future requirements. A new three-story addition is about to be erected in the rear of the Colored Women's Building, which will re-

lieve the constant congestion of its wards. In this connection it is proper to state that the colored race have shown their appreciation of the services rendered them by a donation of twenty-six hundred dollars to date.

Besides the immeasurable relief and benefit to the unfortunates it succors, this Institution is the means of imparting practical knowledge to thousands of medical men, who are using it to relieve sickness and pain in distant and numerous communities.

Since 1832 to the present time it has cared for 624,567 patients. This does not include the out patients, who numbered last year 18,916, and the emergency cases, 8,550. If a proper record of these had been kept since 1832, the number benefited would mount up in the millions. But, while we justly regard it with pride and affection, let us not ignore its defects and deficiencies, which in time we hope to correct.

With assets in 1832 of \$150,000, the estimated valuation of this plant to-day is \$1,600,000.

Entering as a Resident Student in 1859, and connected with it in various capacities for fifty-two years, excepting three years of war, it has my love and veneration.

Within its walls I have learned the lessons which have made me of service to humanity.

Who can tell if this seed of charity in our midst, a divine spark emanating from the soul of the ebbing life of this humble sailor, Jean Louis, revived by the philanthropy of a noble Spaniard, and again through the maternal love of the State for her unfortunate children, may not have exercised an insensible, though potent, influence in promoting those virtues in our people of which, as St. Paul tells us, the greatest is charity!

After the sweet strains of music, diffused by O'Connor's Band, had passed away, Dr. Lewis arose and presented to the audience the Honorable L. E. Valloft, the chairman of the House Committee of the Board of Administrators of the Charity Hospital of Louisiana.

Mr. Valloft, on rising, stated he made no claim to be an orator. He was simply a man of business engaged in com-

mercial pursuits, and would, therefore, confine his "plain talk" to the great work that the Charity Hospital had accomplished; what it was striving to do to alleviate the suffering of the afflicted; the economic measures rendered absolutely necessary on account of the limited means at its disposal; how to-day, at a cost of sixty cents per capita, they were maintaining the Hospital—an almost incredibly low amount, yet the statistics of the Institution would prove the correctness of his calculation and statement; the zealous and never-ceasing care necessary to keep the Hospital up to that high standard of excellence and efficiency, so well understood and appreciated by the world at large.

It is unfortunate that the address of Mr. Valloft cannot be given to the public, as from a business standpoint it was a masterpiece, and would have thrown much light upon the affairs and the management of the Hospital. Mr. Valloft's address was impromptu and delivered without notes.

On the completion of Mr. Valloft's address Dr. Lewis presented Dr. Jos. A. Danna, the eminent House Surgeon of the Charity Hospital, who, in his modest but impressive manner, delivered the following address:

Report of Chairman of Faculty.

NEW ORLEANS, December 8, 1911.

To the Honorable Board of Administrators of the Charity Hospital:

GENTLEMEN—I have the honor of performing this day the agreeable duty of presenting to you, for the conferring of the degree of Graduate Nurse, a class of twenty-four young ladies and three Sisters of Charity.

This is the cream of a class of fifty-three, which, in turn, were the pick of 228 applications received. They have been diligent pupils and faithful workers in the many various duties assigned to them during the two years of their course; have met the moral requirements that have ever been an indispensable feature of our training school, and are, therefore, thoroughly competent and rightfully entitled to receive the hospital diploma and badge of graduation:

Misses Laura Brown, Emma Bowes, Violette L. O'Bryan, Annie Camp, Florence Z. Chapman, Lillie Dixon, Carlana Frechou, Mabel A. Franke, Mildred I. Force, Lela Gregory, Isabel I. Gosling, Mary L. Huff, Catherine Kilmeade, Effie E. Loadholdt, Claudine Lemeunier, May Moseley, Mary L. Manning, Constance J. Madaule, Marian Simmons, Frances Smith, Grace M. Smith, Mary Shepherd, Josephine W. Weldon, Mary P. Wingerter, and Sister Colete, Sister Ernestine and Sister Frances.

Not a ripple of disturbance has marked the course of the past year's work, but rather has a spirit of harmony and good will been a characteristic of the entire training school, a spirit that they have taken with them to their work, in the wards, and at the bedside of the sick whom it has served to cheer and comfort and for whom it has made life as agreeable as possible during their stay with us.

It is with deepest regret, however, that I have to chronicle the loss of two of the most willing workers in the personnel of the training school—one by death, the other by removal. The first, Miss Beulah P. Kleinpeter, a member of the class now before you, an humble toiler in the ranks, sweet of disposition, kind of heart, pure of mind, a martyr to the great work of charity of which she was one of the working units that go to make up the whole, succumbing to an illness which developed while she was at her post of duty, and which her delicate constitution was not strong enough to overcome. The second, that saintly woman who was the guardian angel of this training school for the past ten years, Sister Dolores, its Superintendent, whom the Superiors of the Sisterhood saw fit to transfer to a more important duty at the mother house in St. Louis. Peculiarly fitted for the position by a generous heart, a sympathetic nature, a power of observation of the smallest details, ever watchful of the welfare of each pupil, yet forgiving to a fault, a motherly solicitude and a dignity that lent honor to her position, yet at heart the humblest disciple of St. Vincent de Paul that ever wore the habit of a Sister of Charity. She had carried for herself a place in the hearts of everyone of us, and it will be hard, indeed, to fill the void occasioned by

her removal. But our loss will be her gain, for she has been called to sit in the highest councils of the order of which she was a most unassuming member.

The Faculty of Lecturers have been very faithful and painstaking in their efforts, and have given the benefit of a most thorough course of lectures.

The burden of the work of training these young ladies has been borne by the Sisters of Charity throughout the house, who are the head nurses of the various departments, and who, under the able direction of Sister Agnes, our Directress, and Sister Angelica, the worthy successor of Sister Dolores, have personally supervised and guided their work, and to them is to be given the credit for the results crystallized to-day in this intelligent trained body before us.

Respectfully submitted,

J. A. DANNA, M. D.,

Chairman of Faculty.

Dr. Danna, after the conclusion of his address, was requested to read the beautiful words of Sister Mary Agnes prepared for this occasion of joy and thanksgiving:

Report of Directress.

NEW ORLEANS, LA., December, 1911.

To the Honorable Members of the Charity Hospital Board of Administrators:

GENTLEMEN—The graduating exercises of to-day, marking the completion of the eighteenth year of our Training School for Nurses, are particularly notable, since they coincide with the celebration of the Diamond Jubilee of the Hospital and are honored by the presence of our State and city officials, and so many interested friends, to whom the class extends kindest greetings and a hearty welcome.

It is my privilege to present to you the graduating class of 1911. These young ladies, twenty-four in number, are fully equipped to receive the diploma of the Institution.

They have diligently applied their energies to derive all possible knowledge from the lectures, classwork and the practical experiences so numerous in our vast Hospital and so fruitful in the development of every faculty of a nurse.

By their generosity, kindness and self-sacrificing zeal they have ministered to our poor sick with that efficient and devoted care which soothes and alleviates every pain.

My sincere wishes for a successful career accompany the graduates, and I feel confident that they will reflect credit upon their Alma Mater; and may the blessing of God attend each one in life's journey.

While I regret the removal of Sister Dolores, who for more than ten years, by her untiring efforts to promote the welfare and the success of the Training Class, endeared herself to all who had the privilege of coming under her wise supervision, yet I am happy to say that Divine Providence has given in Sister Angelica, her successor, a devoted and competent representative.

The Cooking Class is always enjoyed by the nurses, who take a laudable pride in preparing broths, drinks, etc., to nourish and to tempt their patients.

A course in massage was given by Miss Williamson, a former pupil of the school. It was thoroughly and peculiarly adapted to the demands in general nursing.

Our Training Class now registers 105. During the year there were 242 applications received. Of these, fifty-two were invited on probation; twelve withdrew on account of sickness or family affairs; six were dismissed; and one died. The class deeply deplores the loss of their beloved classmate, Beulah P. Kleinpeter, who was a model of devotedness to duty and a congenial, lovable companion.

I extend to our House Surgeons and the Faculty of Lecturers sincere gratitude for the genuine interest manifested towards the nurses, who have expressed their appreciation for the instructive course given them.

In conclusion, I wish to express my grateful thanks for the unfailing kindness and support afforded me by your Honorable Board.

I assure you of the earnest desire and good-will of the Sisters to co-operate in bringing to the greatest perfection the interests of the broadest and the noblest of all charities—the Charity Hospital of New Orleans, Louisiana.

May God bless and enlighten the united labors of the worthy administrators of our noble Institution.

SISTER MARY AGNES,

Directress.

Dr. Lewis then arose and presented his Excellency Governor Sanders to the audience, whose protecting care and great interest in the Charity Hospital had enabled the Administrators to accomplish greater results in the relief of suffering humanity.

Governor Sanders delivered a very interesting address, showing the great good which had been accomplished by the Charity Hospital, the fame of which extended beyond the seas, known the world over for the skill of its surgeons, physicians and specialists, the loving and assiduous care and attention of its loyal and faithful nurses, the Sisters of Charity, aided and assisted by their efficient corps of pupil nurses. The Governor stated that the Charity Hospital and all those working therein were near to his heart, and more particularly the good Sisters. And, turning to the Graduation Class, he assured them that to have been trained by these Sisters, with the example of their daily lives before them, was proof that they were not only capable and competent nurses, but good and true women.

The Governor, in conclusion, thanked the Board of Administrators for the great work they had accomplished in the management of the affairs of the Hospital, giving so much of their time in this humanitarian work, receiving no compensation for such service, save that happy consciousness of duty well performed.

The address of the Governor was a masterly effort, although impromptu, and it is to be regretted that it cannot be here reproduced in its entirety for the benefit of the public.

The Governor then presented the Graduating Class with their medals and diplomas, giving to each pupil words of encouragement and advice when they would go forth to engage in their chosen profession.

This terminated the ceremonies of an occasion that will long continue as a bright page in the history of dear old Charity Hospital.

LIST OF SUMS DONATED BY THE COLORED
PEOPLE OF OUR CITY TO THE
CHARITY HOSPITAL

FOR THE ERECTION OF

*ANNEX TO THE COLORED
FEMALE BUILDING*

1911	June.....	\$ 225.00	
	July.....	986.80	
	August.....	50.00	
	October.....	1300.75	
	November.....	105.00	
1912	January.....	462.70	
	February.....	43.25	
	March.....	10.00	
			\$3183.50

Especial thanks are due to Walter J. Cohen,
chairman; Col. James Lewis, vice-chairman; Ed-
ward Barnes, secretary; Dr. L. T. Burbridge,
treasurer, of the General Committee,
and to Raoul L. Llapis, chairman
Committee on Benevolent
Organizations,

WHOSE UNTIRING LABORS

duly appreciated by and responded to by our Colored
Citizens have added to the usefulness of
the Charity Hospital.

*LIST OF THE MORE IMPORTANT
SURGICAL OPERATIONS.*

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS

In the Charity Hospital for the Year 1911.

NOTE.—Many Gynaecological Operations and Appendectomies were performed in combination, though separately enumerated.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Laparotomies—						
Laparotomy. Exploratory.....	---	5	4	3	12	Various.
Laparotomy. Exploratory.....	---	---	2	---	2	Sarcoma. Mesentery.
Laparotomy. Exploratory.....	1	---	---	---	1	Gunshot Wound of Abdomen. No Perforation.
Laparotomy. Exploratory.....	2	---	---	---	2	Stab Wounds of Abdomen.
Laparotomy. Exploratory.....	1	---	---	---	1	Suppurative Perityphlitis.
Laparotomy. Exploratory.....	---	---	10	2	12	Malignant Growths (Various).
Laparotomy. Exploratory.....	1	---	---	1	2	Intestinal Obstruction. Enterolith
Laparotomy. Exploratory.....	1	---	---	---	1	Intestinal Obstruction. Adhesions.
Laparotomy. Exploratory.....	1	---	---	---	1	Intestinal Obstruction. Intestinal Polypus.
Laparotomy. Exploratory.....	1	---	---	---	1	Intestinal Obstruction. Intussusception.
Laparotomy. Colostomy.....	1	---	---	---	1	Intestinal Obstruction.
Laparotomy. To Close Ligature Sinus ..	1	---	---	---	1	Post-Operative Sinus.
Laparotomy. Talma's Operation.....	---	3	---	1	4	Cirrhosis of Liver.
Laparotomy. Drainage.....	1	---	---	---	1	Pelvic Peritonitis.
Laparotomy. Salpingectomy.....	9	---	---	1	10	Tubal Pregnancy (One Double).
Laparotomy. Salpingectomy.....	40	---	---	1	41	One Tube (Some Partial).
Laparotomy. Salpingectomy.....	13	1	---	2	16	Both Tubes.
Laparotomy. Salpingo-Ovariectomy.....	58	1	1	1	61	One Tube and Ovary (Various).
Laparotomy. Salpingo-Ovariectomy.....	23	2	1	2	28	Both Tubes and Ovaries (Various).

Laparotomy. Salpingo-Ovariectomy	3				3	Dermoid Cyst of Ovary.
Laparotomy. Ovariectomy	46				46	One Ovary.
Laparotomy. Ovariectomy	10				10	Both Ovaries.
Laparotomy. Ovariectomy	1	1			2	Sarcoma of Ovary.
Laparotomy. Ovariectomy	34				34	One Ovary. Partial Resection.
Laparotomy. Ovariectomy	7				7	Both Ovaries. Partial Resection.
Laparotomy. Ovariectomy	6				6	Ovarian Cyst.
Laparotomy. Cysts Punctured	13				13	Ovarian Cyst (Small).
Laparotomy. Hysterectomy	10				10	Metrorrhagia.
Laparotomy. Supra-Vaginal Hysterectomy	84			1	85	Uterine Fibroid (Some with Complications).
Laparotomy. Hysterectomy	1				1	Uterine Polypus.
Laparotomy. Panhysterectomy	25			1	26	Uterine Fibroid.
Laparotomy. Panhysterectomy	14			1	15	Double Salpingo-Ovaritis.
Laparotomy. Panhysterectomy		4		1	5	Carcinoma of Uterus (2 Wertheim).
Laparotomy. Panhysterectomy	2	7	1	1	11	Carcinoma of Cervix.
Laparotomy. Panhysterectomy		1			1	Fibro-Myoma.
Laparotomy. Panhysterectomy	1				1	Dermoid Cyst of Ovary.
Laparotomy. Panhysterectomy	1				1	Tubercular Uterus.
Laparotomy. Panhysterectomy	1				1	Uterine Polypus. Endometritis.
Laparotomy. Myomectomy	16				16	Subperitoneal Fibroid.
Laparotomy	1				1	Broad Ligament Cyst.
Laparotomy. Vento-Suspension	56				56	Various (In Combination).
Laparotomy. Vento-Fixation	4				4	Various (In Combination).
Laparotomy. Bamm's Suspension	2				2	Various (In Combination).
Laparotomy. Ligament Suspension	67				67	Various (In Combination).
Laparotomy. Ligament Shortened	1				1	Displacement of Uterus.
Laparotomy. Appendectomy	4				4	Appendicitis. Suppurative.
Laparotomy. Appendectomy	433			2	435	Appendicitis. (Catarrhal, Relapsing and Complicated.)
Laparotomy. Appendectomy				4	4	Appendicitis. (Rupture with Peritonitis.)
Laparotomy	37			4	41	Appendicial Abscess.
Laparotomy. Enterorrhaphy	4			1	5	Torn Bowel (One Anastomosis).
Laparotomy. Splenectomy	1				1	Hypertrophic Spleen.
Laparotomy. Gastrostomy	1				1	Malignant Growth Aesophagus.
Laparotomy. Gastro-Enterostomy		4			4	Carcinoma of Pylorus.
Laparotomy. Gastro-Enterostomy		1			1	Pyloric Stenosis.
Laparotomy. Cholecystotomy	9			1	10	Cholecystitis, Suppurative, Etc.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Laparotomies—Continued.						
Laparotomy. Cholecyst-Enterostomy	1	---	---	---	1	Cholecystitis.
Laparotomy. Cholecystoplasty	---	---	---	1	1	Billiary Fistula.
Laparotomy. Cholecystectomy	1	---	---	---	1	Cholelithiasis.
Laparotomy. Cholelithotomy	12	---	---	1	13	Cholelithiasis.
Laparotomy	---	---	---	2	2	Typhoid Perforation with Peritonitis.
Laparotomy. Caesarean Section	---	---	---	2	2	Eclampsia. Children living
Laparotomy. Caesarean Section	1	---	---	---	1	Placenta Previa.
Amputations—						
Arm	6	---	---	---	6	Railroad Injury.
Arm	2	---	---	---	2	Machine Injury.
Arm	6	---	---	---	6	Gangrene.
Forearm	1	---	---	---	1	Epithelioma of Hand.
Forearm	2	---	---	---	2	Gunshot Wounds.
Breast	3	15	---	1	19	Carcinoma.
Breast	---	2	---	---	2	Papilloma.
Breast	---	1	---	---	1	Fibro-Adenoma.
Hand	3	---	---	---	3	Machine Injury.
Hand	1	---	---	---	1	Gangrene.
Toes	4	---	---	---	4	Gangrene.
Toes	1	---	---	---	1	Crushed Injury.
Great Toe	5	---	---	---	5	Necrosis.
Great Toe	2	---	---	---	2	Gangrene.

Great Toe.....	1			1	Paralysis.
Foot.....	5			5	Railroad Injury.
Foot.....	2			2	Tuberculosis of Bones.
Foot.....	7			7	Gangrene.
Foot.....	3			3	Infected Wounds.
Leg. Lower Third.....	5			5	Crushed Injury.
Leg. Lower Third.....	1			1	Tubercular Foot.
Leg. Lower Third.....	4			4	Railroad Injury.
Leg. Lower Third.....	2			2	Infected Wound.
Leg. Lower Third.....	3		1	4	Gangrene (Mostly Traumatic).
Leg. Lower Third.....	2			2	Railroad Injury of Foot.
Leg. Lower Third.....	3			3	Old Compound Fracture.
Leg. Lower Third.....	1			1	Gunshot Wound of Foot.
Leg. Lower Third.....	1			1	Machine Injury of Foot.
Leg. Middle Third.....	4			4	Necrosis of Stump.
Leg. Middle Third.....	5			5	Railroad Injury.
Leg. Middle Third.....	2			2	Gangrene (Senile).
Leg. Upper Third.....	2			2	Painful Stump.
Leg. Upper Third.....	4			4	Railroad Injury.
Leg. Upper Third.....	1			1	Chronic Ulcer.
Leg. Upper Third.....	1			1	Conical Stump.
Leg. Upper Third.....	2			2	Sarcoma of Ankle.
Leg. Upper Third.....	1			1	Sarcoma of Tibia.
Leg. Upper Third.....	1			1	Recent Compound Fracture.
Leg. Upper Third.....	1			1	Elephantiasis of Foot.
Thigh. Lower Third.....	1			1	Railroad Injury.
Thigh. Lower Third.....			1	1	Railroad Injury (Both).
Thigh. Lower Third.....	3		2	5	Gangrene.
Thigh. Lower Third.....	1			1	Old Infected Stump.
Thigh. Lower Third.....	1	1		2	Osteomyelitis.
Thigh. Lower Third.....			1	1	Giant Cell Sarcoma.
Thigh. Lower Third.....	1		1	2	Gunshot Wound with Gangrene.
Thigh. Middle Third.....	1			1	Infected Wound.
Thigh. Middle Third.....	1			1	Railroad Injury.
Thigh. Middle Third.....	1			1	Elephantiasis.
Thigh. Middle Third.....	1			1	Gunshot Wound (Infected).

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation	Results				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Amputations—Continued.						
Thigh. Middle Third.....				1	1	Sarcoma.
Fingers.....	6				6	Infected Wounds.
Fingers.....	3				3	Machine Injury.
Fingers.....	1				1	Railroad Injury.
Fingers.....	2				2	Crushed Injury.
Fingers.....	2				2	Gunshot Wound.
Fingers.....	1				1	Epithelioma.
Fingers.....	1				1	Burns.
Fingers.....	2				2	Gangrene.
Finger.....	1				1	Ankylosis.
Disarticulations—						
Shoulder.....	2				2	Crushed Injury.
Hip.....				1	1	Sarcoma.
Herniotomies—						
Herniotomy.....	15				15	Ventral Hernia (Some Post-Operative).
Herniotomy. Mayo's Operation.....	10				10	Umbilical Hernia.
Herniotomy. Mayo's Operation.....	1				1	Umbilical Hernia. Strangulated.
Herniotomy.....	5				5	Femoral Hernia.
Herniotomy.....	1				1	Femoral. Strangulated.
Herniotomy.....	2				2	Inguinal Hernia. Congenital.
Herniotomy.....	25				25	Inguinal Hernia. Double.

Herniotomy.....	14		4	18	Inguinal Hernia. Strangulated.
Herniotomy.....	176			176	Inguinal Hernia (Some with other Operations).
Incisions—					
Abscess.....	2			2	Lumbar.
Abscess.....	2			2	Arm (Osteomyelitis of Humerus).
Abscess.....	3			3	Arm (Infected).
Abscess.....	2			2	Axilla.
Abscess.....	1			1	Buttock.
Abscess.....	9	3	1	13	Breast (Mostly Tubercular).
Abscess.....	1			1	Chest Wall.
Abscess.....	1			1	Cheek.
Abscess.....	4			4	Neck (Some Tubercular).
Abscess.....	8			8	Palmer.
Abscess.....	7			7	Hand (Not Palmer).
Abscess.....	6			6	Jaw. (Not Alveolar).
Abscess.....	2			2	Alveolar.
Abscess.....	2		1	3	Liver.
Abscess.....	6	1	1	8	Mastoid.
Abscess.....	6			6	Abdominal Wall.
Abscess.....	3			3	Gluteal.
Abscess.....	17	1	1	19	Peri-Rectal.
Abscess.....	6			6	Psoas.
Abscess.....	1	3		4	Hip (Tubercular).
Abscess.....	8	1		9	Thigh (Some Tubercular).
Abscess.....	1			1	Scalp.
Abscess.....	2			2	Peri-Nephritic.
Abscess.....	1			1	Vulva.
Abscess.....	2			2	Peri-Urethral.
Abscess.....	11			11	Leg (Various).
Abscess.....	8			8	Foot (Various).
Abscess.....	1			1	Fecal Fistula.
Abscess.....	2			2	Perineal.
Abscess.....	2			2	Scrotum.
Abscess.....	2			2	Parotid.
Abscess.....	1			1	Face.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Incisions—Continued.						
Arm.....	1	—	—	—	1	Infected Compound Fracture.
Hand.....	2	—	—	—	2	Infected Wound.
Hip.....	1	—	—	—	1	Gunshot Wound.
Inguinal Glands.....	5	—	—	—	5	Bubo.
Elbow.....	—	—	—	1	1	Infected Wound (Died of Tetanus).
Knee.....	—	1	—	—	1	Old Infected Gunshot Wound.
Knee.....	6	1	—	—	7	Infected Wounds (Various).
Knee.....	3	2	—	—	5	Pyarthrosis.
Knee.....	1	—	—	—	1	Hematoma.
Excisions—						
Axillary Glands.....	2	—	—	—	2	Adenitis (Mostly Tubercular).
Cervical Glands.....	30	4	—	—	34	Adenitis (Various).
Cervical Glands.....	—	1	—	1	2	Sarcoma.

Neoplasm of Abdominal Wall.....	1	---	---	1	Benign Growth.
Neoplasm of Elbow.....	1	---	---	1	Lipoma.
Neoplasm of Arm.....	1	---	---	1	Lipoma.
Neoplasm of Tonsil.....	---	1	---	1	Epithelioma (Ligation of External Carotid).
Neoplasm of Larynx and Oesophagus.....	---	1	1	2	Epithelioma.
Neoplasm of Jaw.....	---	1	---	1	Gumma (Ligation Common Carotid).

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Excisions—Continued.						
Neoplasm of Oesophagus.....	—	1	—	—	1	Gastrostomy.
Cyst Inferior Maxilla.....	2	—	—	—	2	Dentigerous Cysts.
Coccygeal Cyst.....	3	—	—	—	3	Dermoid.
Cyst.....	1	—	—	—	1	Salivary.
Ingrowing Nail.....	3	—	—	—	3	Toe.
Tonsil.....	183	—	—	—	183	Hypertrophy, etc.
Varicose Veins.....	10	—	—	—	10	
Hip.....	—	1	—	—	1	Tubercular.
Keloids from Ear.....	1	—	—	—	1	
Polypus.....	1	—	—	—	1	Nasal.
Resections and Osteotomies—						
Bones of Ankle.....	2	—	—	—	2	Necrosis.
Frontal Sinus.....	3	—	—	—	3	Frontal Sinusitis.
Lateral Sinus.....	1	—	—	—	1	Lateral Sinusitis.
Maxillary Sinus.....	3	—	—	—	3	Maxillary Sinusitis.
Deflected Septum.....	6	—	—	—	6	Sub-Mucous Resection.
Turbinates.....	6	—	—	—	6	Rhinitis and Hypertrophy.
Nasal Bones.....	3	—	—	—	3	Necrosis.
Humerus.....	1	—	—	—	1	Non-Union of Fragments.
Humerus.....	1	—	—	—	1	Osteomyelitis.
Humerus.....	1	—	—	—	1	Wire Removed.
Humerus.....	3	—	—	—	3	Necrosis.

Humerus, Head of	1				1	Vicious Union.
Elbow	1				1	Ankylosis.
Elbow	1				1	Infected Wound.
Elbow Reduction	3				3	Dislocation.
Elbow	2				2	Necrosis.
Humerus, Head of	2				2	Infected Wound.
Ulna and Radius	1				1	Vicious Union.
Tibia	4				4	Ununited Fractures.
Tibia	7	2			9	Osteomyelitis.
Tibia	5				5	Periostitis.
Tibia	14	1			15	Necrosis.
Tibia	2				2	Old Compound Fracture.
Fibula	6				6	Necrosis.
Tibia-Sauto-Plastic Graft		1			1	Necrosis.
Tibia and Fibula	2	1			3	Ununited Fracture.
Femur	4	1			5	Osteomyelitis.
Femur	5				5	Ununited Fractures (Some Wiring).
Femur	2				2	Exostosis.
Femur and Tibia		2			2	Osteomyelitis.
Femur	4				4	Necrosis.
Finger, Bones of	5				5	Infected.
Finger, Bones of	2				2	Necrosis.
Radius	1				1	Vicious Union.
Radius	1				1	Necrosis.
Ribs	1				1	Osteomyelitis.
Ribs	2				2	Necrosis.
Maxilla Inferior	10	3	1	1	15	Necrosis.
Maxilla Inferior	1				1	Fracture (Various).
Maxilla Inferior				1	1	Osteo-Sarcoma.
Maxilla Superior	2	1			3	Necrosis.
Os Colcis	5				5	Necrosis.
Astragulas	2				2	Necrosis.
Bones of Foot	2				2	Necrosis.
Sternum	2				2	Necrosis.
Clavicle	2				2	Necrosis.
Ulna	3				3	Osteitis, Traumatic.

LIST OF THE MORE IMPORTANT SURGICAL OPERATIONS—Continued.

Operation	Results				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Resections and Osteotomies—Continued.						
Knee Joints. Arthrectomy.....	3	1	1	---	5	Ankylosis.
Nasal Septum.....	2	---	---	---	2	Traumatic Fracture.
Scapular.....	1	---	---	---	1	Necrosis.
Osteoclasis—						
Knee Joints, Casts Applied.....	1	---	---	---	1	Double Genu Valgum.
Curettages—						
Old Sinuses.....	8	---	---	---	8	Various.
Sinus of Lower Jaw.....	1	---	---	---	1	After Incision.
Sinus of Ribs.....	1	---	---	---	1	Necrosis.
Sinus of Shoulder.....	3	---	---	---	3	
Ulcer of Forearm.....	1	---	---	---	1	
Ulcer of Leg.....	1	---	---	---	1	
Sinus of Foot.....	2	---	---	---	2	
Hands.....	---	1	---	---	1	Blastomycosis.
Rectal Ulcers Cauterized.....	6	2	---	---	8	
Gynecological—						
Alexander's Operation.....	2	---	---	---	2	Retroversion of Uterus.
Amputation of Cervix.....	44	---	---	---	44	Various.
Cauterization and Zink Paste.....	---	16	2	1	19	Carcinoma of Cervix.
Excision.....	3	---	---	---	3	Caruncle of Urethra.

Excision.....	1	—	—	1	Keloid Labia.
Excision and Cauterization.....	2	1	—	3	Venerial Warts.
Excision.....	3	—	—	3	Nabothian Cysts.
Excision.....	1	—	—	1	Urethral Polypus.
Cauterization.....	3	1	—	4	Chancroids of Vulva.
Excision of Clitoris.....	1	—	—	1	Hypertrophy.
Excision of Vulva.....	2	—	—	2	Elephantiasis.
Excision of Bartholin's Glands.....	6	—	—	6	Vulva-Vaginal Adenitis.
Excision of Polypus.....	2	—	—	2	Anal.
Excision of Polypus.....	3	—	—	3	Uterine.
Partition Incised.....	1	—	—	1	Atresia of Vagina.
Curettage, Uterine.....	2	—	—	2	Menorrhagia.
Curettage, Uterine.....	228	—	—	228	Endometritis (Many with other Operations).
Curettage, Uterine.....	11	—	2	13	Puerperal (Deaths from Septicæmia).
Manual Removal.....	25	—	1	26	Placenta (Incomplete Abortion).
Curetting and Cauterized.....	—	1	—	1	Carcinoma of Posterior Vaginal Wall.
Curettage and Insertion of Pessary.....	1	—	—	1	Endometritis.
Colporrhaphy.....	17	—	—	17	Various.
Perineorrhaphy.....	100	—	—	100	Various (Besides Those Otherwise Noted).
Perineorrhaphy and Colporrhaphy.....	22	—	—	22	Various (Besides Those Otherwise Noted).
Trachelorrhaphy.....	32	—	—	32	(Besides Those Otherwise Noted).
Trachelorrhaphy and Perineorrhaphy.....	63	—	—	63	Many with other Operations.
Myomectomy.....	2	—	—	2	Small Fibroids.
Recto-Vaginal Fistula.....	3	—	—	3	
Vesico-Vaginal Fistula.....	3	—	—	3	
Urethral Cyst Excised.....	1	—	—	1	
Vaginal Hysterectomy.....	2	—	—	2	Procidentia.
Vaginal Hysterectomy.....	1	—	—	1	Carcinoma of Cervix.
Vaginal Incision.....	20	3	—	23	Pelvic Abscess.
Watkin's Operation.....	1	—	—	1	Retroversion of Uterus.
Incision.....	2	—	—	2	Pelvic Cellulitis.
Incision.....	1	—	—	1	Skeen's Glands.
Incised and Curetting.....	—	—	—	—	Perineal Fistula.
Genito-Urinary—					
Cauterization (Some also Curetting).....	34	3	1	38	Chancroids.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Genito-Urinary—Continued.						
Circumcision.....	206	—	—	—	206	Phimosis (Some Chancroids).
External Urethrotomy.....	40	5	—	—	45	Stricture.
External Urethrotomy.....	10	3	—	2	15	Stricture with Extravasation.
Incision.....	3	—	—	—	3	Abscess of Scrotum.
Internal Urethrotomy.....	15	2	—	—	17	Stricture.
Hydrocele of Tunica Vaginalis.....	30	—	—	—	30	One Double.
Hydrocele of Cord.....	3	—	—	—	3	—
Partial Amputation of Penis.....	5	1	—	—	6	Malignant Growths.
Nephrotomy.....	3	—	—	—	3	Nephrolithiasis.
Nephrectomy.....	2	—	—	—	2	Tuberculosis of Kidney.
Nephrectomy.....	—	—	—	1	1	Stab Wounds.
Nephrectomy.....	1	—	—	—	1	Hydronephrosis.
Nephrotomy and Nephropexy.....	1	—	—	—	1	Haematoma and Nephroptosis.
Nephropexy.....	9	—	—	—	9	Nephroptosis.
Nephrectomy.....	2	1	—	—	3	Pyonephrosis.
Orchidectomy.....	8	—	—	—	8	Various.
Perineal Prostatectomy.....	1	—	—	—	1	Hypertrophy of Prostate.
Suprapubic Prostatectomy.....	10	3	—	3	16	Hypertrophy of Prostate.
Suprapubic Prostatectomy.....	—	2	—	3	5	Carcinoma of Prostate.
Suprapubic Cystotomy.....	6	2	1	—	9	Cystitis, Chronic (With Retention, etc.)
Suprapubic Cystotomy.....	10	—	—	—	10	Vesical Calculi.
Suprapubic Cystotomy.....	—	—	—	2	2	Malignant Bladder.
Varicocele.....	21	—	—	—	21	Some Double.

Orchidopexy.....	1	---	---	---	1	Undescended Testicle.
Epididymectomy.....	2	---	---	---	2	
Vasectomy.....	1	---	---	---	1	
Ureterectomy.....	1	---	---	---	1	
Eye—						
Cataract.....	28	2	1	---	31	Mostly Senile.
Cataract, Congenital.....	4	---	---	---	4	
Enucleation of Eye.....	20	2	---	1	23	Various.
Iridectomy.....	2	---	---	---	2	Infection of Eye.
Iridectomy.....	1	---	---	---	1	Prolapse of Iris.
Iridectomy.....	---	2	---	---	2	Chronic Glaucoma.
Pterygium.....	3	---	---	---	3	McReynold's Operation.
Converging Strabismus.....	---	1	---	---	1	Tenotomy (Internal Rectus).
Excised and Cauterized.....	---	1	---	---	1	Carcinoma of Conjunctiva and Cornea.
Excision of Eye and Tumor.....	---	1	---	---	1	Sarcoma.
Miscellaneous—						
Aspiration.....	2	---	---	---	2	Knee (Various).
Cast Applied.....	---	1	---	---	1	Tuberculosis of Knee.
Cast Applied.....	3	---	---	---	3	Genu Varum.
Cast Applied.....	---	3	---	---	3	Hip Joint Disease.
Cast Applied.....	2	1	---	---	3	Hip (Fracture, Various).
Cast Applied.....	1	---	---	---	1	Fracture of Femur.
Cast Applied.....	5	1	---	---	6	Talipes Equino-Varus.
Cast Applied.....	1	---	---	---	1	Angular Deformity Femur.
Cauterization.....	1	1	---	---	2	Ulcer of Rectum.
Craniotomy.....	1	---	---	1	2	Cerebrial Tumor.
Craniotomy (Some Exploratory).....	20	1	---	3	24	Fracture of Skull.
Craniotomy.....	---	1	1	---	2	Epilepsy.
Craniotomy.....	---	---	---	1	1	Hematoma Sub-Dural.
Skull Necrosis.....	2	---	---	---	2	Curetted and Packed.
Dilatation of Rectum.....	8	3	1	1	13	Stricture (Some with Ulcers).
Resection of Rectum.....	1	---	---	---	1	Carcinoma.
Cheiloplasty.....	6	1	---	---	7	Hare-Lip.
Endoaneurysmorrhaphy (Matas).....	3	---	---	---	3	Popliteal Aneurism.
Endoaneurysmorrhaphy (Matas).....	1	---	---	---	1	Common Femoral.
Aneurism of Abdominal Aorta.....	---	---	1	---	1	Exploratory Laparotomy.

Operation	Result				Total	Diagnosis. Remarks
	Cured	Improved	Stationary	Died		
Miscellaneous—Continued.						
Aneurism of Innominate	---	1	---	---	1	Common Carotid Clamped.
Aneurism of Innominate and Arch of Aorta	---	---	---	1	1	Exploratory Thoracotomy.
Dilatation of Rectum	2	---	---	---	2	Fissure.
Dislocation of Hip	3	---	---	---	3	Reduced.
Dislocation of Shoulder	1	---	---	---	1	Reduced.
Dislocation of Elbow	1	---	---	---	1	Reduced.
Fistula in Ano	2	---	---	---	2	Excised, Packed, Sutured, etc.
Fistula in Ano	75	5	1	---	81	Incised, Curetted, Cauterized, etc.
Foreign Body (Floating Cartilage) Removed	1	---	---	---	1	From Knee.
Foreign Body (Bullet) Removed	2	---	---	---	2	From Leg.
Foreign Body (Bullet) Removed	4	---	---	---	4	From Knee.
Foreign Body (Bullet) Removed	1	---	---	---	1	From Foot.
Foreign Body (Bullet) Removed	1	---	---	---	1	From Index Finger.
Foreign Body (Bullet) Removed	1	---	---	---	1	From Scalp.
Foreign Body (Bullet) Removed	2	---	---	---	2	From Thigh.
Foreign Body (Bullet) Removed	3	---	---	---	3	From Forearm.
Foreign Body (Splinter) Removed	3	---	---	---	3	From Foot.
Foreign Body (Needle) Removed	2	---	---	---	2	From Hand.
Foreign Body (Needle) Removed	2	---	---	---	2	From Foot.
Foreign Body (Button) Removed	1	---	---	---	1	From Nose.
Foreign Body (Hair Pin) Removed	1	---	---	---	1	From Wethra (Female)
Foreign Body (Insect) Removed	1	---	---	---	1	From Ear.
Foreign Body (Various) Removed	4	---	---	---	4	From Ear.
Hemorrhoids Removed	10	---	---	---	10	Clamp and Cautery.

Hemorrhoids Removed.....	105				105	Ligation, Suture, etc. (Many in Combination).
Hemorrhoids Removed.....	6				6	Whitehead Operation.
Thyroidectomy.....	9	1		2	12	Various.
Injection of Alcohol.....	1	1			2	Trifacial Neuralgia.
Resection Second Division of Nerve.....	2	1			3	Trifacial Neuralgia.
Laminectomy.....				3	3	Fracture of Vertebrae.
Laminectomy.....				1	1	Gunshot Wound.
Mastoid Operation.....	20	2		2	24	Mastoiditis.
Plastic Operation.....	1				1	Gunshot Wound of Face.
Plastic Operation.....	2				2	Foot.
Plastic Operation.....	1				1	Ear.
Plastic Operation.....	1				1	Elbow.
Plastic Operation.....	1	1			2	Penis.
Plastic Operation.....	1				1	Webb Fingers.
Imperforate Anus.....	1				1	
Tympanotomy.....	1				1	Acute Suppurative Otitis Media.
Spina-Bifida.....	1				1	
Skin Graft.....	35				35	Ulcér (Various).
Skin Graft.....	1				1	Machine Injury, Forearm.
Skin Graft.....	1				1	Machine Injury of Leg.
Skin Graft.....	5				5	Burns (Various).
Skin Graft.....	1				1	Neck (Carbuncle).
Skin Graft.....	1				1	Shoulder.
Skin Graft.....	1				1	Penis (Machine Injury.)
Staphylorrhaphy.....	10	2			12	Cleft Palate.
Suturing of Capsule.....	8				8	Fracture of Patella.
Thoracotomy.....	23	5	2	2	32	Empyema (Various).
Thoracotomy.....	1			1	2	Injection of Beck's Paste Formalty.
Thoracotomy.....	1				1	Hemothorax.
Tenorrhaphy.....	2				2	Various.
Tenotomy and Redressment.....	5	2			7	Talipes Equinus.
Tenotomy and Cast.....	3	1			4	Talipes Equinus-Varus.
Tracheotomy.....	1				1	Foreign Body.
Tracheotomy.....		1			1	Suppurating Gumma.
Tracheotomy.....		1			1	Phlegma of Neck.
Arteriorrhaphy.....	1				1	Gunshot Wound, Femoral Artery.

REPORT OF OUTDOOR DEPARTMENT, 1911.

Table No. 1.

Classified Diseases.

Nature of Disease	White			Colored			Total		Total

CHARITY HOSPITAL
REPORT OF RECORD ROOM
FOR 1911

Report of Record-Room for the Year 1911.

To the Honorable Board of Administrators, Charity Hospital, New Orleans:

GENTLEMEN—I have the honor herewith to submit the subjoined report showing in condensed form the total number of histories filed in this department for each of the four principal divisions—viz.: medical, surgical, gynecological and obstetrical—during the year 1911, a grand total of 12,171, or an average of more than 1,000 histories per month, an increase of approximately fifty per cent. since the establishment of the Registration Bureau in 1906, at the end of which year the number of histories filed was 8,648.

That this phenomenal growth in the number of patients cared for by the Hospital has been attended with signal success in 1911 as regards the results obtained may be reasonably inferred from the fact that while the number of deaths recorded in 1910 was 1,579 for a total of 11,410 patients, the mortality in 1911, with an aggregate of 12,171 patients, was only 1,535, or a diminution of 44 deaths, with an increase of 761 patients.

Without going into details, it may be pointed out, for example, that, while the Hospital has housed considerably more tuberculosis patients in 1911 than in 1910, the number of deaths from that disease, by a singular coincidence, has been exactly the same for each of those two years—viz., 265—a distinct reduction in the death rate for the year 1911.

With respect to the practical utility of the work done in the record-room it is gratifying to report that the continually increasing number of applications to examine histories indicates that the value of the service is becoming widely recognized.

In conclusion, the Registrar begs to thank the Board and the House Staff for courteous consideration, and to assure all concerned of the satisfaction with which his slight share in the work of the institution has been rendered.

Respectfully submitted,

G. FARRAR PATTON, M. D.,

Registrar.

NEW ORLEANS, February 8, 1912.

GENERAL RECAPITULATION FOR THE YEAR 1911.

Cases Filed.	Total.	Cured.	Improved.	Stationary.	Died.

Note as to Deaths in Obstetrical Division.—Of the six patients recorded as dying of Eclampsia, four were colored women admitted in that condition. Three others died of shock after severe operative procedures, and one developed Tetanus. Only one patient delivered in the Hospital died of septicemia, viz.: a colored woman admitted in labor after ineffectual manipulation at her dwelling.

Infants delivered alive, at or near term, are technically "Cured." Of those thus recorded in 1911, six subsequently died of inter-current causes, one of Meningitis and six of Atelectasis Pulmonum, and are registered as deaths in the Medical Division.

† Only 1 delivered in Hospital.

RECAPITULATION FOR THE YEAR 1911.

	Totals	Cured	Improved	Stationary	Died
